

Communication Matters

New !

Social Support Group for Adults with Asperger Syndrome

We invite you to join us in a comfortable, supportive setting, as we learn more about living with the diagnosis of Asperger Syndrome. We welcome you whether you are newly diagnosed, exploring the diagnosis, or consider yourself a seasoned "Aspie".

We look forward to the ideas, questions and insight you bring to the group.

Groups of all ages for men and women are forming now.

Please contact us by phone or email to arrange a no-obligation consultation. Details, including fees, will be discussed at that time.
